

# for ARTS sake!

choose an original artwork  
for your gift registry

An original artwork is a truly timeless and everlasting keepsake that you will treasure for the rest of your life.

Unlike kitchen appliances, homewares and other common wedding gifts, your original artwork will not breakdown or become outdated before your third anniversary! Not only that, original artworks are an investment and your unique wedding gift will appreciate in value over the years.

Your friends and family will relish the opportunity to contribute to such a meaningful and personal gift that they know you've chosen or commissioned yourself and will adorn your walls for years to come.

Award winning Hunter Valley artist, Kristy Holt is excited to announce the launch of

her new gift registry. A selection of her current works are on display at Enzo and David Hook Wines at Peppers Creek, Broke Road Pokolbin and also at Ironbark Barrel Room and Gallery, 694 Hermitage Road Pokolbin. Further samples of Kristy's work can be found on her website at [www.kholtoriginals.com](http://www.kholtoriginals.com).

You may find inspiration in her current works but wish to have your own special piece commissioned to create the ultimate personalised and most unique wedding gift imaginable! Talk to Kristy about options and price brackets for a commissioned artwork and she will offer a creative solution to suit your gift registry budget.

K.HOLT Originals start from as little as \$100, an amazing original artwork is achievable within any budget.
